

2018 TRUCK ROUTES

March 14, 2018

Any vehicle with an actual or registered gross vehicle weight of 10,000 lbs or more must use truck routes as provided in the city ordinance.

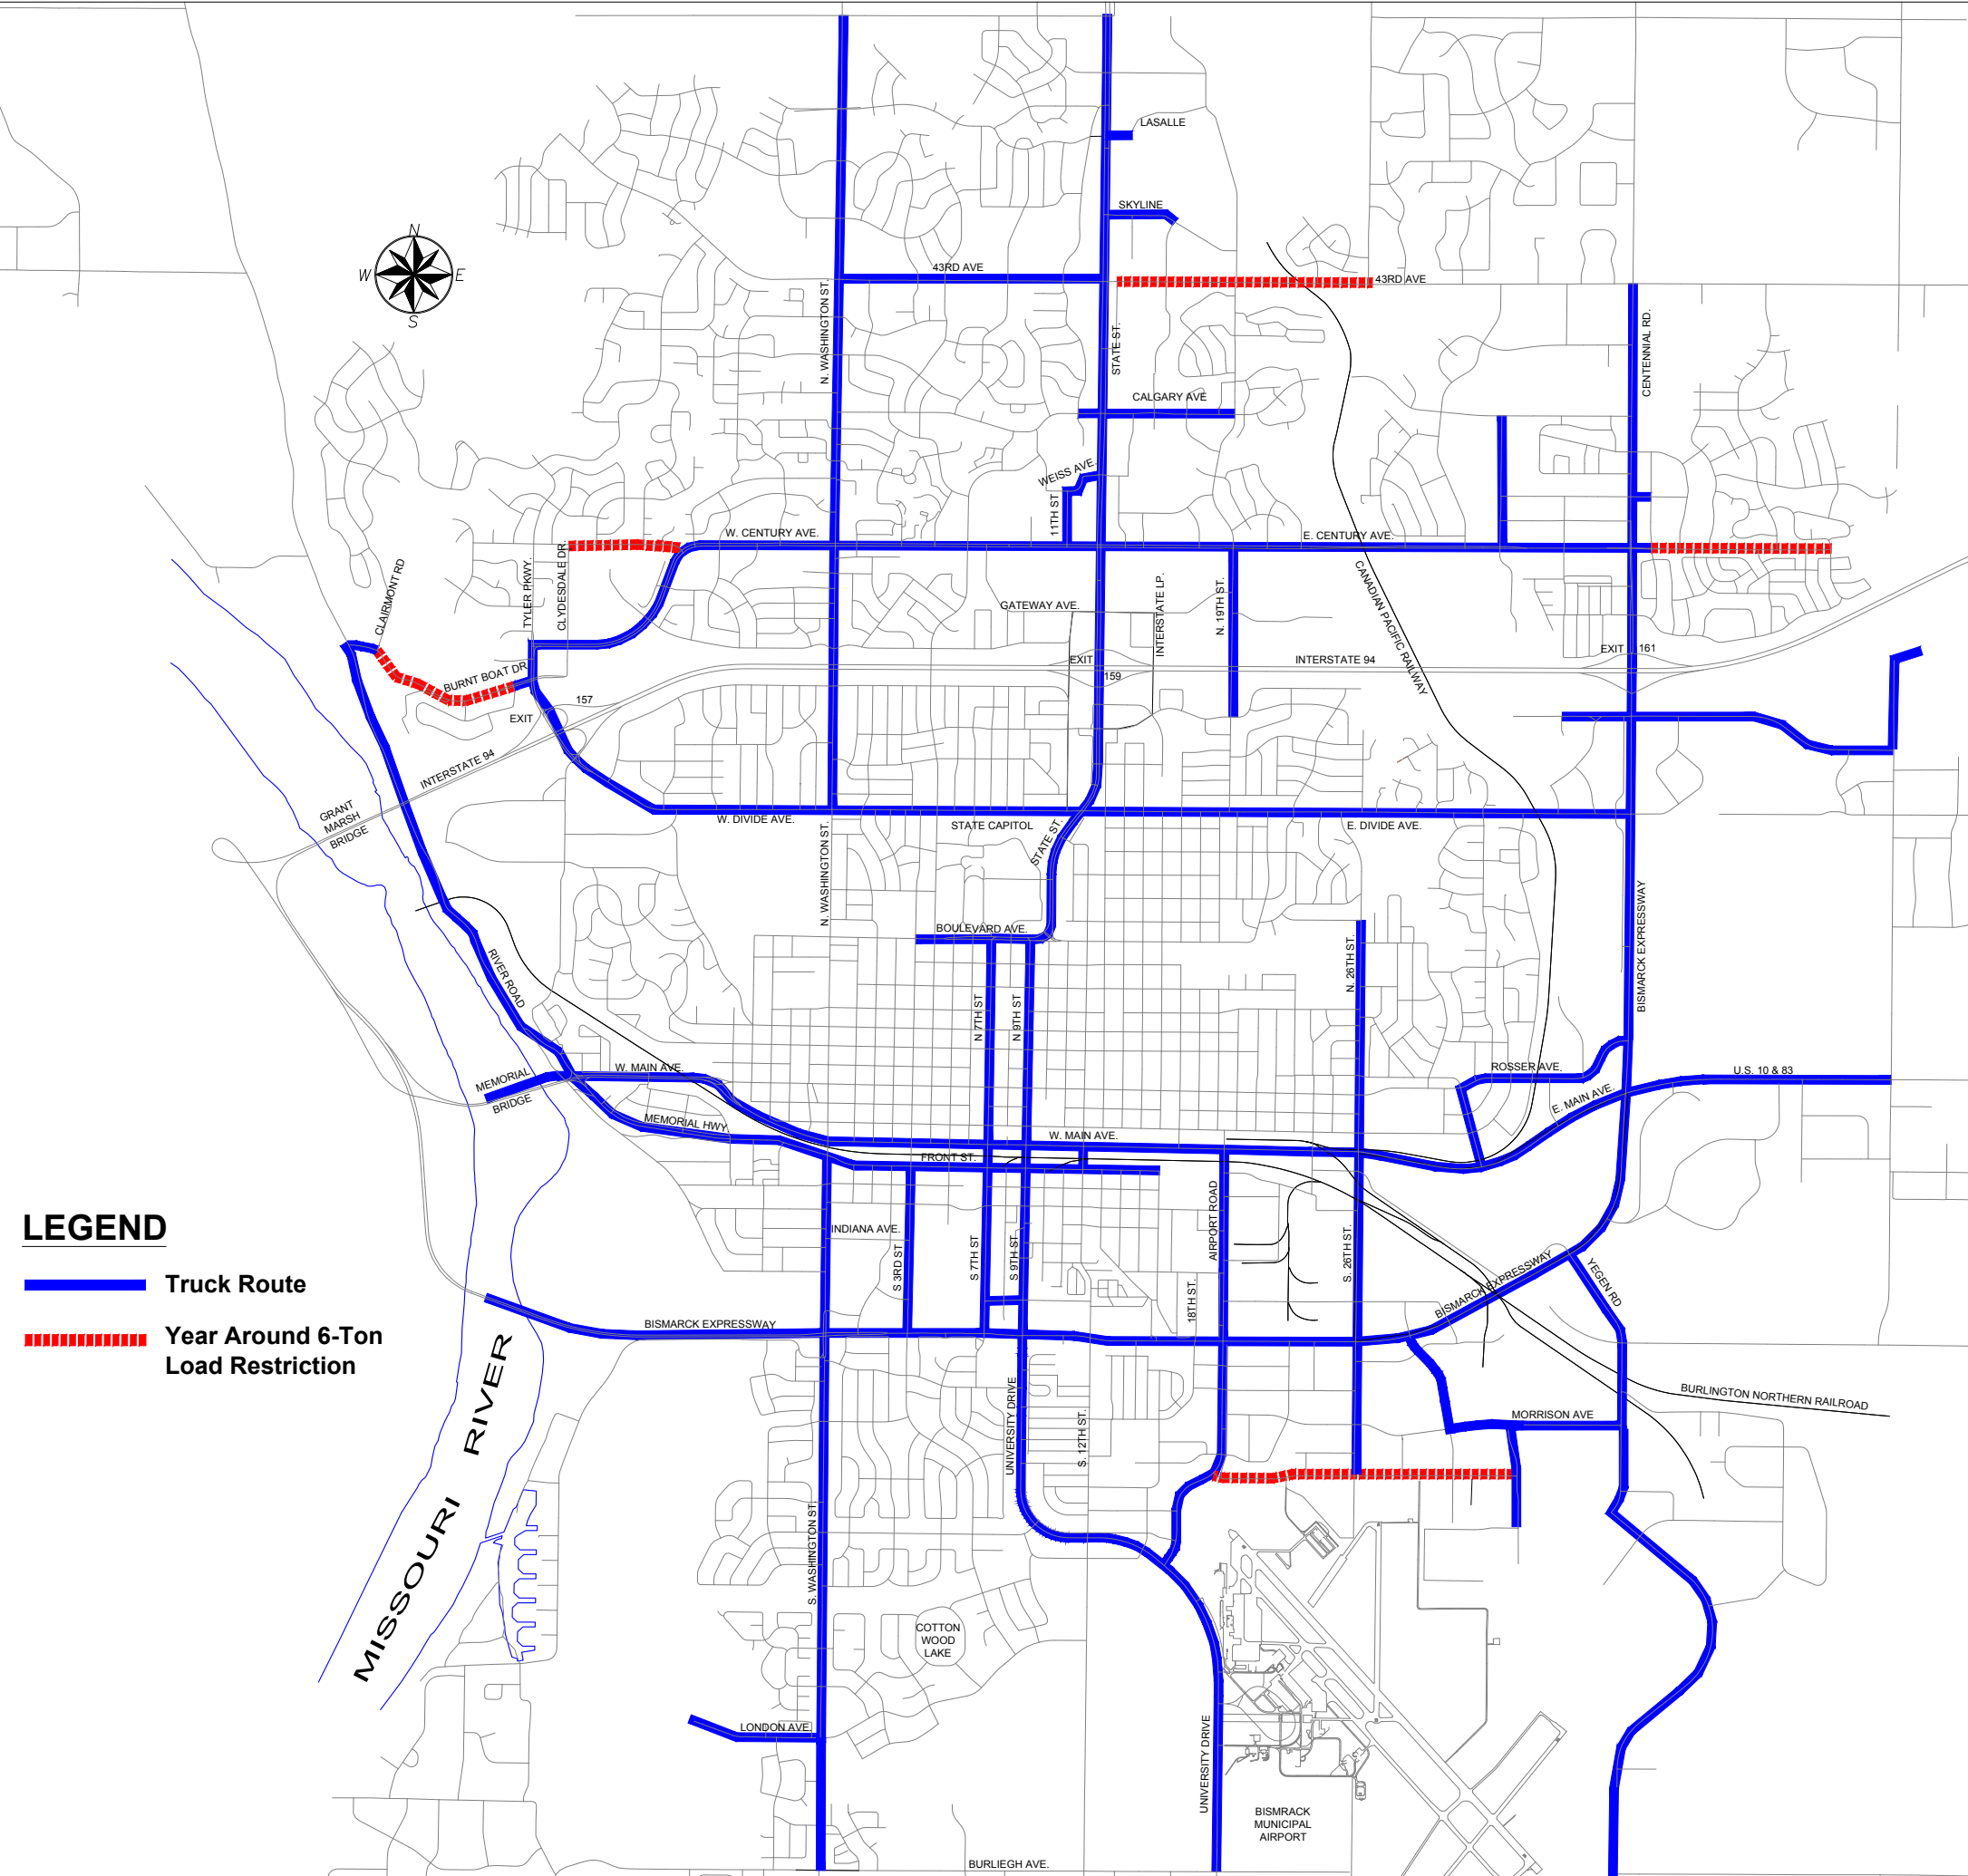

NON-TRUCK ROUTE STREETS: Trucks may travel off of the truck routes only to reach or leave a destination with the shortest possible distance of travel on non-truck route streets.

LOCAL DELIVER & PICKUP Trucks used for home delivery and pickup must use truck routes except when actually making deliveries or pickups. Travel between delivery or pickup sites must utilize truck routes when this will reduce travel on non-truck routes streets.
