

Engineering Department

DATE: 6/2/2021

FROM: Gabe Schell, City Engineer

ITEM:

Streetlight and Traffic Signal Utility Project SV 59

REQUEST:

Receive bids and award contract for Streetlight and Traffic Signal Utility Project SV 59.

Please place this item on the 6/8/2021 City Commission meeting agenda.

BACKGROUND INFORMATION:

Streetlight and Traffic Signal Utility Project SV 59 consists of one unit of traffic signal cabinet replacement consisting of replacing two traffic signal controller cabinets for the traffic signals at the intersections of 5th Street and Broadway Avenue and at 4th Street and Avenue C.

This project was previously bid on May 3, where the bids received exceeded the 2021 CIP programmed cost. The project was reworked by removing some bid items and extending completion dates so the bid costs will better align with the programmed CIP costs.

The bid opening is scheduled for June 7, 2021. The revised engineer's estimate is \$95,500.

The bid summary and project budget will be distributed prior to the commission meeting.

Proposed Project Schedule

Receipt and Opening of Bids

June 7, 2021

Award of Bid

June 8, 2021

Project Completion

Summer 2022

RECOMMENDED CITY COMMISSION ACTION:

Receive bids and award contract for SV 59.
