

Burleigh-Morton COVID-19 Steering Committee
MEETING AGENDA
TEAMS MEETING
Tuesday, September 8, 2020
2:30 PM

Renae Moch called the meeting to order at 2:32 PM.

I. Healthcare Analytics Data Update – Renae Moch

Renae Moch and Erin Ourada met with Dr. Connell and Dr. Tracy Miller, State Epidemiologist, last week Friday afternoon. Discussion was held regarding dashboard statistics and what we can use to measure progress. It was decided that the newly released guiding metrics which determine color levels could be used as a dashboard. Dr. Tracy Miller was going to make a request to have this information on the public facing dashboard which would benefit us as a task force as well.

II. Subcommittee Reports / Goals for this Week

a. Healthcare Testing & Contact Tracing – Erin Ourada

Nothing new to report.

b. Educational Institutions & Activities – Anton Sattler

Nothing new to report.

c. Underserved/Vulnerable Populations – Dr. John Hagan

Nearby reservation has established their own sheltering system which has positively impacted the workload for the shelter locally. A shelter location is in the process of being finalized. Still working on shelter management/security contracts.

d. Business Community – Brian Ritter

Seeing more of a fear of isolation & quarantine rather than fear of getting the disease at this point. Employers do not want their businesses to shut down. Will continue to work on tools to support businesses to respond to COVID-19.

- e. **Public Education** – Kalen Ost
Nothing new to report.

III. September 11th Task Force Agenda

Please send agenda items to Renae Moch by end of business day on Wednesday.

IV. Other Items Brought Forward by Committee Members

None.

Meeting adjourned at 3:05 PM.
